

## Earth & Environmental Sciences Class Schedule – Spring2021

|                    | <b>Monday</b>                             | <b>Tuesday</b>                                  | <b>Wednesday</b>                          | <b>Thursday</b>                                | <b>Friday</b>                             |
|--------------------|---|---|---|--|---|
| <b>7:55-9:10</b>   |   |   |   |  |   |
| <b>9:20-10:35</b>  | EES 200 Don<br><b>EES 027 Anne ST 102</b> | EES 080 Peter<br>EES 363 Dork<br>EES 028 Katie  | EES 200 Don<br><b>EES 027 Anne ST 102</b> | EES 080 Peter<br>EES 363 Dork<br>EES 028 Katie |   |
| <b>10:45-12:00</b> | EES 131 Gray                              | EES 223 Dave<br>EES 386 Bob                     | EES 131 Gray                              | EES 223 Dave<br>EES 386 Bob                    | <b>Lunch</b>                              |
| <b>12:10-1:25</b>  | EES 306 Ken<br>EES 025 Don                | <b>Faculty Meeting</b>                          | EES 306 Ken<br>EES 025. Don               | <b>12:10-1:00</b><br>EES 363 Dork              | <b>Seminar</b>                            |
| <b>1:35-2:50</b>   | EES 011 Ed<br><b>EES 023 Ben ST 102</b>   | EES 012 Ed                                      | EES 011 Ed<br><b>EES 023 Ben ST 102</b>   | EES 012 Ed                                     | <b>1:35-2:25</b><br>EES 004 Joan/Ben      |
| <b>1:35-4:15</b>   | EES 223 Dave                              | <b>EES 200 Frank ST 131/141</b><br>EES 022 Anne | EES 022 Anne<br>EES 131 Gray              | EES 080 Peter<br>EES 306 Ken                   | EES 131 Gray<br><b>EES 386 Bob ST 571</b> |
| <b>3:00-4:15</b>   | EES 021 Ken                               |   | EES 021 Ken                               | <b>3:00-3:50</b><br>EES 004 Joan/Ben           |   |
| <b>4:25-7:05</b>   |   |   |   |  |   |

400-levels: **412 – Frank**  
473 - Steve  
457 - Joan

**Mode of teaching:** Remote synchronous

**FLEX**

Remote asynchronous  
EES 011 Ed  
EES 012 Ed  
EES 022 Anne

|       |             |                                 |  |
|-------|-------------|---------------------------------|--|
| 12138 | EES 004-060 | Science of Environmental Issues | Class meetings will alternate between synchronous and asynchronous format. Background material will be asynchronous, followed by an activity and a synchronous discussion.   |
| 12140 | EES 004-061 | Science of Environmental Issues | Class meetings will alternate between synchronous and asynchronous format. Background material will be asynchronous, followed by an activity and a synchronous discussion.   |
| 10192 | EES 011-010 | Environmental Geology           | Fully remote and taught asynchronously.  |
| 13328 | EES 012-010 | Glaciers And Glaciation         | Fully remote and taught asynchronously.  |
| 11846 | EES 021-010 | Introduction To Planet Earth    | The course will be taught synchronously online during class period, the rest will be asynchronous.   |
| 10766 | EES 022-060 | Exploring Earth                 | Lab asynchronous. During assigned times (CRN 10766 T 1:35-4:15pm) instructors are available to meet with students on zoom links provided to answer questions and provide assistance in completing the labs, additional office hours available for assistance.  |
| 10767 | EES 022-061 | Exploring Earth                 | Lab asynchronous. During assigned times (CRN 10767 T 1:35-4:15pm) instructors are available to meet with students on zoom links provided to answer questions and provide assistance in completing the labs, additional office hours available for assistance.  |
| 10768 | EES 022-062 | Exploring Earth                 | Lab asynchronous. During assigned times ( CRN 10768 W 1:35-4:15pm) instructors are available to meet with students on zoom links provided to answer questions and provide assistance in completing the labs, additional office hours available for assistance. |

|       |             |                                |   |
|-------|-------------|--------------------------------|---|
| 11654 | EES 022-063 | Exploring Earth                | Lab asynchronous. During assigned times (CRN 11654 W 1:35-4:15pm) instructors are available to meet with students on zoom links provided to answer questions and provide assistance in completing the labs, additional office hours available for assistance. |
| 14159 | EES 023-010 | Weathr&Climatpastpresentfuture | We will meet once per week synchronously and the rest (including pre-recorded lectures) will be asynchronous.   |
| 15476 | EES 023-011 | Weathr&Climatpastpresentfuture | We will meet once per week in person and the rest (including pre-recorded lectures) will be asynchronous.   |
| 14160 | EES 025-010 | Environment & Living Systems   | This will course will be taught synchronous via zoom. It will be recorded for students to later review.   |
| 14800 | EES 027-010 | Natural Hazards, Impact/Conseq | One class meeting per week will be remote asynchronous (students listen to a lecture and complete an assignment) and one remote synchronous class meeting per week will involve discussion and group work.  |
| 15478 | EES 027-011 | Natural Hazards, Impact/Conseq | One class meeting per week will be asynchronous remote (students listen to a lecture and complete an assignment) and one in person class meeting per week will involve discussion and group work.   |
| 12160 | EES 028-010 | Conservation And Biodiversity  | The class will meet synchronously once per week during our assigned contact time. Office hours and asynchronous assignments will occur once per week.   |

|       |             |                                |  |
|-------|-------------|--------------------------------|--|
| 12161 | EES 080-010 | Intro to the Earth Syst        | For lectures, the class will meet twice per week in remote-synchronous mode. The laboratory block will also be remote synchronous and will be used to explain lab exercises, provide help with completing these exercises, and allow for discussion about course material. Asynchronous participation possible by arrangement. |
| 10765 | EES 131-010 | Introduct To Rocks & Minerals  | For lectures, the class will meet twice per week in remote-synchronous mode. The laboratory block will also be remote synchronous and will be used to explain lab exercises, provide help with completing these exercises, and allow for discussion about course material. Asynchronous participation possible by arrangement. |
| 12537 | EES 131-011 | Intro To Rocks & Minerals      | For lectures, the class will meet twice per week in remote-synchronous mode. The laboratory block will also be remote synchronous and will be used to explain lab exercises, provide help with completing these exercises, and allow for discussion about course material. Asynchronous participation possible by arrangement. |
| 12146 | EES 200-010 | Earth History                  | Remote synchronous lectures and labs via zoom will be recorded and made available for later viewing.   |
| 15481 | EES 200-011 | Earth History                  | Lectures will be remote synchronous via zoom and will be recorded and made available for later viewing. Labs will be in person.  |
| 13354 | EES 223-010 | Structural Geology & Tectonics | Lectures will be asynchronous and labs will be taught synchronous.   |
| 14801 | EES 306-010 | Geol. Records Of Climate Chg   | The course and lab will be taught synchronously via zoom.  |
| 14802 | EES 306-011 | Geol. Records Of Climate Chg   | The course and lab will be taught synchronously via zoom.  |

|       |             |                                |   |
|-------|-------------|--------------------------------|---|
| 14803 | EES 363-010 | Volcanology                    | Fully remote, online, synchronous only. There will be no in-class contact.  |
| 14804 | EES 363-011 | Volcanology                    | Fully remote, online, synchronous only. There will be no in-class contact.  |
| 14805 | EES 386-010 | Wetland Ecology                | A combination of synchronous and asynchronous activities will occur via zoom weekly for both the lecture and labs.  |
| 14806 | EES 386-011 | Wetland Ecology                | A combination of synchronous and asynchronous activities will occur via zoom weekly for both the lecture and labs.  |
| 15016 | EES 386-012 | Wetland Ecology                | A combination of synchronous and asynchronous activities will occur via zoom weekly for both the lecture and labs. The in-person portion of this lab will be 1-2 times in the later part of the semester pending warmer weather and COVID status. |
| 15018 | EES 386-013 | Wetland Ecology                | A combination of synchronous and asynchronous activities will occur via zoom weekly for both the lecture and labs. The in-person portion of this lab will be 1-2 times in the later part of the semester pending warmer weather and COVID status. |
| 14807 | EES 412-010 | Fluvial&Tectonic Geomorphology | Synchronous lectures once or twice a week that students can attend in person (if allowed) or remotely. A one day local field trip late in the semester accessible on foot or by bicycle.  |

|       |             |                                |  |
|-------|-------------|--------------------------------|--|
| 14948 | EES 412-011 | Fluvial&Tectonic Geomorphology | Synchronous lectures once or twice a week that students can attend remotely. |
| 14808 | EES 457-010 | Adv. Remote Sensing Of Environ | Online Synchronous via zoom  |
| 14809 | EES 473-010 | Aqueous Geochemistry           | Online Synchronous via zoom  |
